Lead-Free-RoHS Compliance

Candor Industries Inc manufactures technologically advanced printed wiring boards comprised exclusively of RoHS compliant materials where specified. All qualified suppliers certify that approved materials have been tested in accordance with, and meet the requirements of RoHS directives.

RoHS limits the amount of certain elements used in the manufacture of electronic components.

Table 1 describes the six controlled substances.

Table 1: Restriction of Hazardous Substances (RoHS) (2002/95/EC)	
Substance	Trace Amount
Lead (Pb)	≤ 0.1% <u>1</u> /
Cadmium (Cd)	< 0.01% <u>1</u> /
Mercury (Hg)	≤ 0.1% <u>1</u> /
Hexavalent Chromium (Cr ⁺⁶)	< 0.1% <u>1</u> /
Polybrominated Biphenyls (PBB)	≤ 0.1% <u>1</u> /
Polybrominated Diphenyl Ethers (PBDE)	≤ 0.1% <u>1</u> /

Note 1/: "by weight at raw homogeneous materials level"

Candor monitors compliance development and maintains a Lead-Free RoHS program with our supply chain. Active supplier participation in this program is part of the qualification criteria for supplier approval.

Monitoring, measurement and analysis of raw materials and processes are diligent concerns of all employees at Candor, whose participation ensures and supports the program success.

Candor offers UL recognition for this program as well as marking in accordance with J-STD-609 (IPC-1066).
